

Solutions for Paper and Cellulose Industry

Teaming leading instrumentation manufacturers ECM Group companies are supplying since 1991 gas, liquid, solid, metal and particle monitoring instrumentation for clients in Central and Eastern Europe.

Monitoring solutions for paper and cellulose industry:

Combustion Control, ESP protection

Working area

Wood chips moisture

Watercut monitors for paper machine luboil

Pressure gauges for cellulose process

Green, Black and White Liquor

Bleaching process

Process water organic content

ABC Titrator

Foam level

Cellulose sludge sampling

Continuous emission monitoring systems

Coagulant & Flocculant dosing

Water hardness

Waste water treatment plant

Odor

Surrounding ambient air

Recovery Boiler camera system

Boiler water

With detailed information on solutions of your interest we are gladly available on our contact:
